

## Peter Bartscherer defended his doctoral thesis

### Congratulations!

Peter Bartscherer defended his doctoral thesis about the development of a conductive ceramic functional film for exhaust gas sensors (German original title "Entwicklung einer leitfähigen keramischen Funktionsschicht für Abgassensoren") on April 28<sup>th</sup>, 2014.

He already published a part of his thesis in "P. Bartscherer, R. Moos, Improvement of the sensitivity of a conductometric soot sensor by adding a conductive cover layer, *Journal of Sensors and Sensor Systems*, **2**, 95-102 (2013), doi: 10.5194/jsss-2-95-2013"

He is now with Robert Bosch GmbH in Reutlingen, Germany
