

1st defense 2019: Tran Nhu Hong Hanus defended her thesis

Congratulations!

On February 13, 2019, Ms. Tran Nhu Hong Hanus defended her doctoral theses about “Production and characterization of aluminum oxide layers by the aerosol deposition method” (German original title: “Herstellung und Charakterisierung von Aluminiumoxidschichten nach dem Verfahren der aerosolbasierten Kaltabscheidung”).

Special thanks to Prof. Riedel from the Technical University of Darmstadt for his support as the second examiner!

From left to right: Prof. Rieg, Dr. Hanus, Prof. Moos, Prof. Riedel (TU Darmstadt), and Prof. Krenkel
