

Eurosenors XXXVI in Debrecen, Hungary

Department of Functional Materials gave talks on different types of gas sensors

The Eurosenors Conference has a long history in Europe. This year, it was held in Debrecen, Hungary (1-4 September 2024) in the venerable building of the University of Debrecen, rich in history. More than 250 participants from almost 40 countries attended the conference. The Department of Functional Materials gave two oral presentations, all focusing on gas sensors.

D. Schönauer-Kamin, M. Linz, M. Schmitz, R. Moos: *Are Powder Aerosol-Deposited Films Appropriate for Chemiresistive NO_x Gas Dosimeters?* doi: 10.5162/EUROSENSORSXXXVI/OT5.189

T. Wöhr, G. Hagen, R. Moos: *Ammonia Sensor to Effectively Dose the Reducing Agent for NO_x SCR Systems in Biomass Combustion Systems* doi: 10.5162/EUROSENSORSXXXVI/OT5.99
