

## Progress in Powder Aerosol Deposition (PAD)

### Mario Linz, Daniel Paulus, and Jaroslaw Kita presented latest results at the “Ceramics in Europe” in Krakow, Poland

Functional and structural ceramics were united in Krakow at the "Ceramics in Europe" conference, organized by the European Ceramic Society. This large conference was held in presence from July 10 to 14, 2022.

Mario Linz and Daniel Paulus from the Department of Functional Materials reported on their latest results (PAD). Jaroslaw Kita gave an overview on applications and challenges of PAD.

Prof. Schafföner and the Department of Ceramic Materials Engineering were also present in Krakow.
